

LET'S GET FRESH...

HOST A FRESH FOOD DRIVE

DONATE PRODUCE TO FIGHT HUNGER

Host a FRESH Food Drive!

Food Pantries do not get fresh produce on a consistent basis. Donations slow or cease to exist in the winter months, when the local growing season comes to a halt.

Increase access to fresh produce for area families. Here are two ways to help:

1. **HOST** a Fresh Food Drive. Pick a date and collect fresh produce that day. You will be given the tools to host a successful event. When advertising your event, encourage people to donate a variety of fresh produce (whole, uncut). We suggest a 10lb donation. Think a bag of potatoes, apples, oranges, bananas, melon.... We will be at the drive to collect the produce.
2. **DONATE** online at paypal.me/believegitm
Your donation is tax-deductible. We will purchase food from our farmers and producers whenever possible and donate it to a local food pantry. The produce will be donated to local food pantries when they need it most.

All donations will be distributed through Good Food Recovery software called ChowMatch – ensuring the right amount of produce is delivered at a convenient time for the food pantry, reducing waste.
